EMMANUEL L. MOISE SUPERVISORY PATENT EXAMINER

## Continuation Sheet (PTOL-462)

Continuation of 10. Other (including any explanation in support of the above items):

Regarding item 4a above, although the brief repeats the independent claims verbatim (pages 4 and 5 of the present brief), and includes a general restatement of the independent claims, which appears to be lifted directly from the summary in the present specification (for example, in reference to Claim 1, see page 3 of the present brief, citing page 1, lines 22-32 of the present specification), the brief does not contain a clear and specific summary or concise explanation of the subject matter of each of the independent claims. The mere general repetition and restatement of the claims does not provide a clear explanation for the subject matter therein. See 37 CFR 41.37(c)(1)(v) and MPEP § 1205.02.

Regarding item 6 above, it is noted that Appellant's brief includes arguments and remarks directed to the rejection of claims under 35 U.S.C. 102(e) (see page 6, line 20-page 10, line 20 of the present brief, in reference to Claim 1, and page 22, line 1-page 24, line 22 of the present brief, in reference to Claim 24). However, the Examiner notes that this rejection was previously withdrawn (see page 2 of the Office action mailed 12 December 2005). Further, the Examiner notes that these arguments appear under a heading indicating that Issue 1 for review on appeal is whether Claims 1-6, 14-26, 29, and 31 are unpatentable under 35 U.S.C. 103(a). 37 CFR 41.37(c)(1)(vii) requires that the argument must contain "contentions of appellant with respect to each ground of rejection PRESENTED FOR REVIEW" (emphasis added). The above-noted arguments regarding the withdrawn rejection under 35 U.S.C. 102(e) are not in reference to or with respect to a ground of rejection presented for review, and in particular are not in reference to the rejection referred to by the heading of the section in which they appear, and therefore should not be included.
